

WISKI for the Small to Medium Agency

WISKI, KISTERS' Enterprise Water Information Management System (WIMS) is now affordably priced for the small to medium-sized City, County and Agency. WISKI is a robust and flexible solution for use in the following areas and tasks:

Management Areas

- Drinking Water
- Wastewater
- Storm Water
- Groundwater
- Water Supply
- Irrigation

Key Tasks

- Event Detection
- Drinking Water Compliance
- Waste Water Compliance
- Leak Detection
- Energy Efficiency
- I&I Management
- Flood Warning & Management
- Data Management
- Reservoir Management
- Drought Management
- Irrigation Management

We are proud to work for:

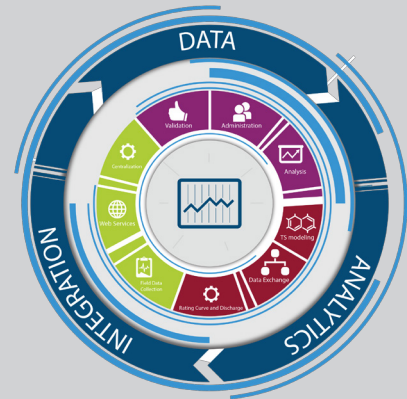

Import, Export and Reporting

WISKI has the ability to connect to any data source that is electronically available providing an automated import. Manual data entry is managed using configurable data entry masks with automated entry validation.

WISKI provides many methods for exporting data out to third party solutions. The common methods are Web Services, API communications and scheduled tasks. Generally, all standard file formats can be supported.

WISKI provides the user with many alternatives for reporting. With the base WISKI package you have the ability to store, manage, analyze and report on all of your real-time and manually collected water quantity and quality data.

Additional modules are available for alarming, web presentation, web services and resource optimization.

The WISKI Solution Integrates With:

- SCADA Systems
- LIMS Systems
- Field Data Collection Tools
- GIS Mapping
- Models
- Asset Management Systems
- Work Order Management Systems
- Websites and Data Portals
- ERP Systems

We are honored to be recognized by:

*Water &
Wastes Digest*

For The Replacement of Legacy Process Data Collection System at Ontario Clean Water Agency (OCWA)

"This project will allow for real-time information and data entry, increased information accuracy, and a consolidated repository for all process and compliance data. Having attended sessions with other WISKI 7 users, I feel that we have only scratched the surface of WISKI 7's capabilities."

- Cindy Spencer
Special Projects Manager
Ontario Clean Water Agency

Contact a KISTERS sales representative today to find out more about WISKI and its ability to transform the way you manage your water data.
